To ensure long-term affordability in the Mozley Park neighborhood, we are offering a home through the community land trust model.

Visit atlantalandtrust.org for an overview of how land trusts work and why they are important to low-income homebuyers and neighborhoods with decreasing affordability.
CAN'T FIND AN AFFORDABLE HOME TO BUY?

Limited housing supply and a very competitive housing market are squeezing low-income families out of homeownership. Neighborhoods once considered affordable have fewer and fewer affordable options. Here's a unique homeownership opportunity for low-income homebuyers ONLY – specifically, those at or below 80% of area median household income.

How does a Community Land Trust work?

1. Community land trusts use various sources of capital to acquire/develop homes in a geographic focus area.

2. A new income-qualified resident buys and owns their house outright, but the CLT retains ownership of the land.

3. The homeowner leases the land beneath the house from the CLT, which maintains permanent affordability.

4. As long as the homeowner stays in the house, they are building equity. The new resident is still able to buy a home at a price that's been kept affordable, and agrees to the same requirements around the resale.

Residents have the opportunity to serve on the CLT board of directors.

When they are ready to sell, the CLT sets a price that allows them to earn a portion of the equity while maintaining an affordable price.

58% of CLT homebuyers go on to buy a market rate home, using the equity they gained by being a CLT homeowner.
